

All Students are required, by the Ministry of Transportation to complete a "Home Study" portion of our course.

This homework will be handed out prior to the classroom.

The homework must be **e-mailed** back to [driving@tbaytel.net](mailto:driving@tbaytel.net) no later than the **morning of day 4 of classroom.**

If you miss a classroom the homework is still due by the morning of day 4. Failure to turn in homework when scheduled will result in a delay starting your in-car driving lessons.

When you register for a class you will be assigned a **driving topic (Homework 3)** that relates to safe driving. Make a minimum 4-8 slide presentation on Power Point (please see assignment rules below) and should be sent to [driving@tbaytel.net](mailto:driving@tbaytel.net)

If you choose not to abide by these conditions you will have to repeat the classroom or possibly fail the course. Homework is part of the course and required under the Ministry of Transportation curriculum rules and we must enforce them.

### Homework 3 Driving Topic: Please Read Carefully

\* The driving related topic will be assigned when you enroll, if you have any questions or concerns please talk to the office or classroom teacher.

\*Each assignment could help supplement your total mark if you want to do the presentation in the classroom.

\***Presenting in front of class is not a requirement; strictly volunteer**, but if you do, could earn an extra 25 marks, and could supplement your total marks depending on the outcome of the final in classroom test. A student **can** collaborate with another student from the classroom but the assignment should reflect the extra contribution and the mark (25) will be split.

· The assignment should also (only if you're going to present to class) be on a U.S.B. stick and brought to class.

\*The topic, when done on Power Point should be a minimum font size (20) and should be at high contrast with the background of the presentation slides; for example, use black text on white background and vice versa, this helps improve the readability of the text and the use of pictures also enhances the appearance of your creative work.

\* Note: If using a film clip to enhance the lecture for example from You Tube ® make sure the content is appropriate with no bad language or offensive remarks.

If you have any questions or concerns about any portion of this course, please contact our office, thank you.
